Viktorja Tolstoy *Pictures Of Me* ACT 9712-2

Tolstoy is one of those singers who writes a lot of her own material which falls somewhere in the jazz/folk/pop arena, as do most of her selections by other hands. Clear articulation, attractive voice, great backing from some of Scandinavia's best like the classy Jacob Karlzon on piano. Only Van Morrison's "The Way Lovers Do" and Peter Gabriel's "Kiss That Frog" really get a groove going.
